## SUMMARY

---

Passionate Computer Science grad skilled in Java, Dart, and Flutter. Created AI-driven chatbots, GPS-based mobile apps. Salesforce-certified. Excited to innovate and contribute to tech projects.

## PROJECTS

---

### JavaTalk | Chat Application

- 1 Designed and developed an intuitive Java-based chat application, utilizing socket programming for real-time messaging.
- 2 Handled end-to-end development, encompassing UI/UX design, backend functionality, and database integration.
- 3 Executed a comprehensive development cycle from conceptualization to implementation, employing Java socket programming for real-time communication and ensuring robust functionality.

### ChatGPT Clone | AI-Powered Chatbot

Personal Project • [https://github.com/LalitMujalde/ChatGPT\\_Clone\\_w.Flutter](https://github.com/LalitMujalde/ChatGPT_Clone_w.Flutter) • August 2023 – September 2023

- 1. Engineered the application to process user queries and generate AI-powered responses, harnessing the capabilities of the OpenAI API to provide contextually relevant answers and interactions.
- 2. Implemented a feature allowing users to select from various language models available via the OpenAI API, empowering users to choose specific models based on their preferences or needs for diverse conversational experiences.
- 3. Integrated several essential dependencies to enhance the app's functionality and user experience. These dependencies facilitated animated icons, loading indicators, HTTP requests, state management, and text animations within the Flutter application.

### PlayConnect | Flutter Mobile Application

SGSITS • <https://github.com/LalitMujalde/PlayConnect> • November 2022 – March 2023

- 1. Engineered the PlayConnect mobile application using Flutter, offering a social platform for connecting players.
- 2. Leveraging GPS and Google Maps API, swiftly locate nearby playgrounds for user convenience.
- 3. Harnessing Firebase Firestore, exhibit detailed player profiles, and employ Firebase Cloud Messaging for hassle-free communication via pull requests.

### Wrinkled Pages | Online E-Book Library

SGSITS • [https://github.com/LalitMujalde/Wrinkled\\_Pages](https://github.com/LalitMujalde/Wrinkled_Pages) • January 2022 – March 2022

- 1. Executed the project using the Agile methodology for collaborative and iterative development, ensuring adaptability to changing requirements and consistent feedback integration.
- 2. Developed an E-book maker empowering users to create an unlimited number of E-books, emphasizing accessibility and user-driven content creation.
- 3. Expanded the platform to enable users to browse, review, and appreciate E-books created by fellow users, fostering a vibrant community-driven platform that encourages interaction and appreciation among users.

## EDUCATION

---

### Bachelor of technology

Shri G.S. Institute of Technology and Science, Indore • Indore, India • 2023 • 5.9

### Intermediate/+2

Saraswati Shishu Vidhya Mandir, Alirajpur • Alirajpur, India • 2019 • 82.4 %

## CERTIFICATIONS

---

### Salesforce Developer Virtual Internship

TheSmartBridge and SmartInternz • 2023

Commitment to professional development and proficiency in Salesforce technologies, bolstering qualifications for roles within the field.

### Responsive Web Development

FreeCodeCamp • 2021

- Certified in crafting adaptable and user-centered websites for optimal viewing across various devices and screen sizes

## SKILLS

---

Programming: Java, Dart, Python, Javascript, php

Mobile: Flutter, Firebase, http, RestAPI

Leveraged API: OpenAI, Google Maps, ChatBot

Front-End: HTML, CSS, SCSS, SASS, BootStrap

**Software:** Visual Studio Code, IntelliJ Idea, Apache, Git, Trailhead, Wordpress

**OS:** Windows, Linux
